

Miles Per Gallon Quiz

Your task is to rank the gas savings from MPG improvements for a car driven 10,000 miles. Place a "1" beside the upgrade that will save the most gas, a "2" beside the upgrade that will save the second-most amount of gas, and so on until all five upgrades have a number beside them.

___ **Upgrade A:** Increase gas mileage from 18 to 28 MPG

___ **Upgrade B:** Increase gas mileage from 16 to 20 MPG

___ **Upgrade C:** Increase gas mileage from 34 to 50 MPG

___ **Upgrade D:** Increase gas mileage from 20 to 22 MPG

___ **Upgrade E:** Increase gas mileage from 42 to 46 MPG
